

By the Numbers

A Glimpse at the Need in Our Three Valleys Region

Our Three Valleys region is rich in innovation, scientific and technical achievements, agriculture, natural beauty, and the arts, with a strong commitment to inclusion and community. Yet submerged in our suburbs and in the midst of great affluence, there are many individuals struggling to survive daily.

Whether that struggle comes in the form of food security, housing, access to basic health or mental health services, the needs and the individuals are very real. Here are just a few examples...

Top Community Health Needs:

The 2019 Community Health Needs Assessment and 2021 Community Benefit Report by Stanford Healthcare - Tri-Valley (formerly ValleyCare) lists *behavioral health (mental health), health care access and delivery, housing and homelessness and healthy lifestyles (obesity, diabetes, healthy eating, active living)* as the *top* community health needs.¹

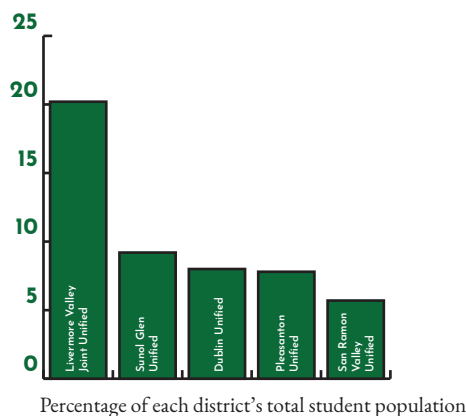

Poverty

More than **16,400** individuals live below the poverty line in our Three Valleys region. That represents a 60% increase in the number of people living in poverty since 2000.²

Poverty in our Schools

In our Three Valleys region, there are approximately 6,500 school-aged youth who live in socio-economically disadvantaged households.³

Housing

11,000 Tri-Valley households are rent-burdened (over 30% of income goes to rent).⁴

Unsheltered Individuals⁵

174	Livermore*
72	Pleasanton
29	Dublin
27	San Ramon
8	Danville
3	Alamo

*In addition, Livermore has 68 sheltered homeless individuals, 48% of whom are children.

Food Insecurity

More than 185,500 residents in Alameda and Contra Costa Counties are food insecure. 70,000 are children.⁶

Disability

3.2% of residents under age 65 in our Three Valleys region are living with a disability OR 12,500 individuals.⁷

*3,150 individuals have developmental disabilities. By 2023, 1,045 units will be needed to house this vulnerable population.

Foster Youth

There are nearly 75 identified foster youth who live in our Three Valleys region.⁸

Childcare

In Alameda County, more than 115,000 children lack access to formal childcare and early education/preschool.⁹

Mental Health

According to worldwide trends, 1 in 4 youth are experiencing elevated depression symptoms and 1 in 5 elevated anxious symptoms, since the pandemic and our local data mirrors these trends.¹⁰

Education

Although our region has one of the highest rates of doctorate degrees per capita, and 67% of Tri-Valley residents have a Bachelor's Degree or higher, nearly 6% of adults in our Three Valleys region do not have a high school diploma.¹¹

Join Three Valleys Community Foundation as we identify the top needs in our region for grantmaking opportunities in 2023. Our goal? A community where every single person has the opportunity to live a full and rewarding life. Let's give, grant and grow - together.
